With our EHR conversion to Meditech, our patients will need to create a new Patient Portal account to access their provider, medical records, view test results, and more.

Register for a **NEW Patient Portal Account** by following the steps below! Should you need assistance, please do not hesitate to call us at (970) 878 - 5047.

PIONEERS

- Visit the Patient Portal login page: https://pioneershospitalportal.meditech.cloud/pmd1
- 2. Select the Create Account tab
- Enter the required information in each prompt seen on the screen.
 The information you enter here MUST match what we have on file at Pioneers Medical Center.
- A successful entry on the Create Account page will trigger an automated email sent to the address you entered on the page.
- 5. Check your email and look for the enrollment link, which will redirect you to the page where you choose your secure Username, Password, and Security Question.
- 6. The final step is to read and agree to the User Agreement.
- 7. The screen will then redirect to the Patient Portal homepage.
- 8. You can now log-in to your new account and view information related to your medical record.
